

CALL TO ARTISTS!

The Joseph H. Messina Children's Center, operated by Child Care of Southwest Florida has been transforming the outdoor environment into a Natural Playscape. We are looking for local artists to paint murals on the outside walls to reflect nature scenes that compliment the outdoor educational area. We have several murals to be painted which include the aquatic area, and playgrounds. We are also looking for artists to transform the cement block walls into beautiful mosaics and to create mosaic stepping stones. We have over 30 Community Partners who have donated time, materials, plants and features to our project. We have had over 150 volunteers working on the project and over 750 man hours. We ask the local artists to volunteer their time and materials to create a unique visual, tactile and sensory experience for the children and families of our community. Please contact: Tamara Aronson, Director, Joseph H. Messina Children's Center, 239-278-1148 or e-mail tammya@ccswfl.org for more information.
