## Come explore the wonders of watercolor!

This is the class where you can experiment with watercolor tools and techniques. You will learn what various brushes, scrubbers, sponges, scrapers, toothbrushes, salt, and masking compounds will produce. You will discover the results that different colors and paint application techniques produce as well. You will learn to appreciate good composition, and the importance of planning, before you paint with watercolor. Then, you will apply your knowledge while creating one, or more, masterpieces! Please ask for a materials list. Always, feel free to contact me.

Chris Vernier-Pesce is a naturally gifted watercolorist. She created her first piece in 1971, worked the outdoor art circuit, and then, left her passion behind to pursue her career in business.
